A. Trust Lands: Budget vs. Expenses – Please ask if you have questions

B. Reading Improvement – Acadience and RI Data

a. *School-wide – Generally our school doesn't perform as well as the district. For the last 2 years, our Acadience data has shown that we are close to district percentages for proficiencies. Council goal is 65% at typical or above growth (statistically 60% is typical for growth), currently as a school we are at 58.1% growth. RI (3rd-6th) growth is up 13% at 55% proficient or above.*

b. Grade level Growth– 60%

Kinder – 40%

First – 51%

Second – 67%

Third – 45%

Fourth – 71%

Fifth – 73%

Sixth – 71%

c. *Currently having data team meetings to discuss drill downs, growth, and proficiencies and how to meet the needs of students who below typical growth or well-below growth.*

d. *Proposals for discussion for next year's goals: Continue with last year's goals as we continue to make progress to achieving the goals. 65% for reading growth, PLC working – but we need time to make it embedded in school culture, SEL in these COVID times are necessary. (Possibly in the future we can look at a math game, however we will need to have a math intervention goal and we're not quite there yet.)*

- C. Digital Citizenship – NetSmartz assembly was held on Nov. 18th – April Review
- D. Safety and Behavior Plan – SWIS Behavior Data shared last time
- E. Staff Development: Fractions with Dr. Bahr
